

CUSTOM TMJ IMPLANT PROGRAM

Lord Charles Hotel, Somerset West, Cape Town

27
Sept 2025

SPEAKERS

**Dr Kobus
Hoek**

Dr Kobus Hoek

Dr Kobus Hoek is a specialist Maxillofacial and Oral Surgeon with extensive experience in temporomandibular joint (TMJ) surgery and implant rehabilitation. He obtained his BChD degree from the University of Stellenbosch in 2003, followed by a Master's degree in Maxillofacial and Oral Surgery (MChD) from the University of Pretoria in 2011. In the same year, he was awarded the FFD (SA) MFOS qualification by the Colleges of Medicine of South Africa.

Dr Hoek has dedicated his career to the surgical management of complex maxillofacial conditions, with a particular focus on TMJ reconstruction and custom TMJ implant solutions. He is actively involved in the advancement of TMJ surgery, utilizing state-of-the-art techniques to improve patient outcomes and quality of life.

As a recognized expert in his field, Dr Hoek has presented at international congresses and contributed to research on TMJ pathology and implant rehabilitation. His commitment to innovation and patient care has established him as a leading specialist in maxillofacial surgery.

**Dr Hermann
Kluge**

Dr Hermann Kluge

Dr. Hermann Kluge is a highly qualified Maxillo-Facial and Oral Surgeon based in Pretoria, South Africa. He earned his BChD degree from the University of Pretoria, followed by a DipOdont in Oral Surgery, an MChD in Maxillo-Facial and Oral Surgery, and the FCMFOS (SA) certification.

From 2006 to 2020, Dr. Kluge served as a Senior Specialist in the Department of Maxillo-Facial and Oral Surgery at Pretoria Academic Hospital. He is currently in private practice at Cintocare Hospital in Pretoria, where he focuses on facial reconstruction, head and neck oncology, orthognathic surgery, and implantology.

Dr. Kluge is an active member of several professional organizations, including the South African Society of Maxillo-Facial and Oral Surgeons, the Pretoria Head and Neck Multi-Disciplinary Team, the South African Society of Dental Implantology, and AO CMF. He is also a founding member involved in the development of Cintocare, the first specialized head and neck hospital in Africa.

Throughout his career, Dr. Kluge has demonstrated a commitment to advancing surgical techniques and improving patient outcomes in his areas of expertise.

CUSTOM TMJ IMPLANT DAY

MORNING SESSION

LECTURE SESSION

Overview of the Temporomandibular region.

Detailed overview of the custom TMJ implant procedure.

Tips and tricks of TMJ implant surgery.

Step-by-step surgical techniques with recorded live surgical procedures.

Complications and how to handle them.

AFTERNOON SESSION

TMJ IMPLANT SURGICAL PLACEMENTS

Model surgery to ensure delegates can perform the techniques demonstrated through case presentations.

This workshop is designed to provide both theoretical and practical insights, giving attendees the opportunity to enhance their surgical proficiency in TMJ procedures.
