

REHABILITATING THE ATROPHIC MAXILLA: MASTERING FULL-ARCH IMPLANT SOLUTIONS

Enhance your skills in treating atrophic jaws with various solutions from Neodent. This hands-on workshop provides practical techniques and expert insights to tackle complex cases with confidence.

SASMFOS Pre-Congress Workshop
Tues, 23 Sept 2025
Lord Charles Hotel, Somerset West

Dr Coelette Smit

Dr. Coelette Smit is a dual-qualified Maxillo-Facial and Oral Surgeon with extensive experience in facial reconstruction, TMJ disorders, and orthognathic surgery. With a meticulous surgical approach, she handles complex maxillofacial cases, often leading multidisciplinary treatment plans. Her work is grounded in both precision and patient-centered outcomes.

Dr Jameel Desai

Dr. Jameel Desai is an experienced Oral and Maxillo-Facial Surgeon with special interests in TMJ management, arthroscopy, and trauma care. A strong advocate for practical innovation, he also volunteers in disaster medicine initiatives. Dr. Desai frequently partners with Dr. Smit in treating advanced TMJ cases, combining their strengths to deliver exceptional surgical outcomes.
